Section .TUBE.9. Transfer (change of Registrar)

The transfer-in process may be initiated on Our Interface. Before requesting the transfer of the domain, please make sure You have the domain's authorization code (supplied by Your current Registrar), and that Your domain name:

- does not have a TransferProhibited status,
- does not expire soon (We recommend that You start the transfer request at least 1 month prior to its Expiration),
- was created at least 60 days prior to the request,
- has not been transferred within the last 60 days.

Upon successfully transferring a domain, the registration period is extended by one year.

Section .TUBE.10. Ownership change

The ownership change process is available on Our Interface and requires the confirmation of both parties by e-mail.

The owner change of a domain name does not change the domain's expiration date.

Section .TUBE.11. Deletion process

Upon the Expiration of the domain, We suspend (Hold) the domain name for 45 days, during which time all associated technical services are deactivated. Late renewal at normal price is possible during this period.

Then the domain goes into Redemption Period for an additional 30 days, and all associated technical services are deactivated. It can only be restored during this period in accordance with the terms and conditions described on Our website and/or as communicated by Our customer service department.

If the domain is neither renewed nor restored within these deadlines, the Registry shall place the domain on "Pending Delete" status for several days, and then delete the domain name, which will become available for registration on a "first-come first-served" basis.

Section .TUBE.12. Registrant obligations

You agree to provide and maintain accurate, reliable and up-to-date personal contact information. Failing to do so, the Registry may delete Your domain name.

By submitting a registration or modification request You acknowledge that:

- Your request must contain true, accurate and up-to-date information, must be made in good faith, for a lawful purpose, and must not infringe the rights of any third party,
- You have the authority to enter into the registration agreement
- You have to participate in good faith in any proceedings as established by the Registry and ICANN,
- You have to accept and abide by the rules and policies enacted by the Registry.

You also commit Yourself to comply with:

- ICANN standards, policies, procedures, and practices for the Registry as set forth in the Registry Agreement,
- Operational standards, policies, procedures and practices for the Registry TLD as set forth in the Registry Agreement and as established from time to time by Registry Operator in a non-arbitrary manner and applicable to all registrars, including affiliates of Registry, and consistent with ICANN's standards, policies, procedures, and practices and Registry Operator's Registry Agreement with ICANN, as applicable, upon Registry's notification to Registrar of the establishment of those terms and conditions.

You acknowledge having read and understood and agrees to be bound by the terms and conditions of the following documents, as they may be amended from time to time, which are hereby incorporated and made an integral part of this agreement:

- The Uniform Domain Name Dispute Resolution Policy, available at: <http://www.icann.org/en/help/dndr/udrp/policy>.
The UDRP sets forth the terms and conditions in connection with a dispute between a registrant and any party other than the Registry or Registrar over the registration and use of an Internet domain name registered by registrant. The Registry is not required to ensure that a domain name is being used in compliance with the UDRP.
- The Uniform Rapid Suspension Procedure and Rules, available at: <http://newgtlds.icann.org/en/applicants/urs>.
The URS is one of new Rights Protection Mechanisms available in the new gTLD program. It complements the existing UDRP by offering a lower-cost, faster path to relief for rights holders experiencing the most clear-cut cases of infringement. The URS procedure defines the URS claims process.
- The Transfer Dispute Resolution Policy, available at: <http://www.icann.org/en/help/dndr/tdrp>.
The TDRP sets forth the terms under which a dispute relating to

Inter-Registrar domain name transfers are handled. Registrars are encouraged to first of all attempt to resolve the problem among the Registrars involved in the dispute. In cases where this is unsuccessful and where a Registrar elects to file a dispute, the TDRP procedures apply. Registry is not required to ensure that a domain name is being used in compliance with the TDRP processes.

In any case, You acknowledge and agree that distributing malware, abusively operating botnets, phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeiting or otherwise engaging in activity contrary to applicable law are expressly prohibited. Failing to comply with this provision, You expose Yourself to the suspension of Your domain name, in addition to the prosecution for the prejudice caused to third parties and to the penalties mentioned under applicable law.

You commit Yourself to indemnify and hold harmless the Registry, its affiliates and subsidiaries, as well as each of their respective owners, directors, managers, officers, employees, contractors, service providers and agents from and against any and all claims, damages, liabilities, costs, and expenses, including reasonable legal fees and expenses (including on appeal) arising out of or relating in any way to Your domain name, including, without limitation, the choice, registration, renewal, deletion, transfer or use of Your domain name and/or the violation of any applicable terms and conditions governing the registration of a domain name. You shall not enter into any settlement or compromise of any such claim without Gandi's prior written consent that shall not be unreasonably withheld. This indemnification obligation shall survive the termination of the present contract, whatever may be the cause, and is the direct consequence of Our accreditation agreement.

Section .TUBE.13. Rights of the Registry

You expressly acknowledge and accept that the Registry shall be entitled, that it deems necessary, in its sole and entire discretion, but not obligated, to reject, delete, suspend, transfer to a third party or place in "lock" status, "hold" status or similar status Your domain name:

- comply with specifications adopted by any industry group generally recognized as authoritative with respect to the Internet (e.g RFCs)
- to correct mistakes made by the Registry or any Registrar in connection with a domain name registration or
- for the non-payment of fees
- to protect the integrity, security and stability of the Internet or Registry
- comply with any applicable law, government rules or requirements, requests of law enforcement or any other relevant authority or in compliance with any dispute resolution processed
- to avoid any liability, civil or criminal on the part of the Registry and Registry service provider and their affiliates, subsidiaries, subcontractors, officers, directors, employees and stockholders
- for violations of this agreement
- to ensure compliance with ICANN and/or Registry policies and/or procedures

The Registry also reserves the right to place Your domain name in « lock » status, « hold » status or similar status during resolution of a dispute.

It is not the obligation of the Registry to notify You in advance of the termination or expiration for any reason of Your domain name and particularly they shall be entitled, but not obligated, to immediately suspend or delete Your domain name that is in breach of the Registry terms and conditions or any other applicable law or regulation.

You agree that You may not claim any compensation for damages of any sort from the Registry such as, but not limited to, any fees payable or paid within the context of a dispute initiated against any decision of the Registry.
